

Safety Committee Meeting Minutes 04/01/2026

Meeting called to order at: 1832

Members Present: Ray Dandeneau, Ron Parvin, Ian Peterson, Keith Smith, Keith Veit.

Communications: None

Old Business: None

New Business:

- The committee discussed issues with the newly purchased particulate blocking hoods. It appears the face hole in the hood does not make a proper seal around the SCBA mask on some members. **DO NOT** use the new hoods, they will be collected and replaced with standard hoods. Quartermaster Savage is working with the vendor to find a solution/replacement. Please monitor your email for more information.
- The committee discussed a recent "close call" that was reported. The incident involved roadway traffic while exiting apparatus on scene of an emergency incident. All members must maintain full situational awareness while exiting apparatus and working in/around traffic. Approved reflective PPE shall be deployed at all times when working near traffic. We cannot assume that drivers coming into emergency scenes can/will slow down or stop.
- The committee discussed the report that was received from SDAO after our recent site visit.
- The next Silvertown Fire District Safety Committee meeting will be held at Station 8 and will include a facility inspection.

Round Table Discussion / Reports:

None-

Injury Reports: None
Accident Reports: None
Exposure Reports: None
Next meeting: 05/06/2026 @ Station 8
Meeting adjourned at: 1900

Respectfully Submitted,

Keith Veit

Secretary - Chairman
